

Dear fellow man/woman, as Parents please be aware that when your son or daughter goes back to school:

MASKS do NOT offer PROTECTION, but they DO INHIBIT oxygen intake;

Medical Science: Masks do NOT protect from the Coronavirus, top scientists warn after major study in Denmark 'that wearing masks in the community does not significantly reduce the rates of infection' [1], but does 'pose serious risks to the healthy', causing a rise in bacterial infections and acidity levels in the blood that can allow other illnesses to thrive. Wearing a mask can also cause a reduction of up to 20% to the oxygen levels within the blood [2, 3, 4 & 5];

Biology 101: We breathe in oxygen, and we breathe out CO₂. With a mask we breathe in our own CO₂ (waste): which reduces our capability to concentrate and slows the brain, which CAN cause permanent brain damage [6], little ones and our elders are more vulnerable to this. When wearing a face mask, any exhaled viruses are not able to escape and will concentrate in the nasal passages, enter the olfactory nerves and travel into the brain, which can cause illness.

To Know: Mandatory means OPTIONAL. It is NOT a LAW. Schools are recommending masks but the choice is for you, and your son or daughter should not experience any consequence in the school environment for opting out. All schools should complete a thorough risk assessment and inform students of the risks of harm so that you can give informed consent or non consent. Please do NOT allow a woman or man to prevent you, or your son or daughter from breathing. We all have the power and the right to protect our children, as this could be a claim at a civil court, trial by jury for trespass by way of harm; know that as man or woman you have rights, as citizens you only have privileges, only man/woman can hold man/woman liable, this is why we have civil courts for when individuals or organisations (legal) break laws [7];

Your fellow woman/man (acting as teacher or Government) needs your consent to comply with rules he or she acts on. This is why they disguise rules, acts, etc as 'mandatory'. When challenged, you can say "I do not consent to limit my oxygen intake and that of my son and daughter as it causes harm"; if they persist invite them to testify at court for your claim of harm or attempt to harm (for more information see reference 7);

This is a non-sensical recommendation not a 'law' and is decreed under the pretense of 'protecting' us from a disease with the mortality rate of the common flu (between 0.1 and 0.5%) [8], If you choose to comply, you could be responsible for your own harm and that of your sons and daughters.

It is also important to consider the psychological and emotional effects that this severing from our simple humanity and connection is having and could have on our children long term [9], who controls the British Governments response to Covid-19 [10], and where this is all going [11];

**One should not attack and insult those who have chosen not to wear a mask,
as these studies suggest that is the wise choice to make;**
